Workforce Technology Products and Services Available at the Workforce IT Support Center

October 06, 2020

FOR IMMEDIATE RELEASE

WASHINGTON - The National Association of State Workforce Agencies (NASWA) announced a collection of *Workforce Technology Products and Services* that is available now at the Workforce IT Support Center in the [Solutions Marketplace](#).

This virtual warehouse features an interactive experience for NASWA state members and other authorized users of Workforce Innovation and Opportunity Act (WIOA) partner agencies to search and filter information based on their specific interests and needs. The collection houses over thirty products and services to meet WIOA technology needs.

WORKFORCE TECHNOLOGY PRODUCTS AND SERVICES

The Solutions Marketplace: Workforce Technology Products and Services is a collection of available products and services. Scan the virtual warehouse of WIOA technology solutions and integrated applications, including vendor, nonprofit, and government products.

Visit [Workforce Technology Products and Services](#) (requires a NASWA member account login or authorized user access)

"This virtual warehouse developed by our Workforce IT Support Center is available to assist our member states and WIOA partners in finding specific products to help them address their agency needs and requirements," said Scott B. Sanders, NASWA President and CEO. "It is my hope that our members will find this collection beneficial during this critical time."
