

AcUity Unemployment Insurance Solution

January 28, 2021

AcUity is a modern unemployment insurance (UI) solution designed to support state-level UI benefits and manage and address complex financial, eligibility, and claims-management requirements. The services-based approach means AcUity works in both business-as-usual and crisis environments.

AcUity is a secure web-based platform built on enterprise-grade components, with a robust business-rules engine, prebuilt automation of common UI processes, and scalability and security either in an on-premises or cloud infrastructure. Fully integrated and feature rich, it meets most state requirements on day one. Based on its proven performance in a crisis, it is the premier scalable, open, and flexible solution available in the market today.

Architected leveraging key guiding principles from Enterprise Content Management (ECM), Business Process Management (BPM), Case Management, Accounting, Imaging and Workflow (IWF), Operations Management, and analytics, AcUity brings operational excellence and an optimal fit to Unemployment Insurance agencies. 3
