Data Analysis Certificate Program - Coming this Fall!

September 07, 2021

The NASWA Learning team is excited to announce that the first certificate program in Data Analysis will be completed this fall.

The certificate program is designed to train beginning UI Data Analysts in foundational principles and key skills necessary to analyze data to continuously improve program integrity.

Eight lessons are currently available - [Enroll now](#)*! The remaining lessons in the Beginning Data Analyst Certificate program will be published as they are completed.

**Note: a NASWA member account and Learning account are required to access lessons and courses.*

For more information, visit naswa.org/learning and view the [COURSE CATALOG](#)

Additional certificate programs in Data Analysis are being developed for:

- Advanced Data Analysts
 - Fraud Investigators
 - Tax Auditors
 - Managers and Leaders
-
