Dear Chairman Wyden, Ranking Member Crapo, Chairman Neal, and Ranking Member Brady,

As a coalition of membership organizations representing the nation's public agencies and institutions that are responsible for state and local workforce and health and human services systems, we are writing to urge you to provide a one-year extension to the Temporary Assistance for Needy Families (TANF) program, effective through September 2023. TANF provides essential funding to help state and local governments deliver benefits and services that help families experiencing poverty achieve economic mobility.

Congress last reauthorized TANF in 2005 and has renewed the program through a series of short-term extensions that has largely left the federal design of TANF unchanged. Despite this, states and counties have been hard at work in recent years to implement reforms within their control to improve how TANF helps people attain family-sustaining wages and succeed for the long-term. While we continue to seek bipartisan solutions for a long-term TANF reauthorization, a full-year extension of TANF is essential to give state and local governments the continuity that is needed to help people with barriers to employment meet their basic needs and access and contribute to the economic opportunity of our nation.

There is much work ahead and we stand as allies and partners to advance our shared goals. We urge Congress to authorize a one-year TANF extension, while we work towards a much needed reauthorization of the TANF program that aligns with the broader workforce and human services systems to support the economic well-being and mobility of all Americans.
