Launch of the State UI Trainers' Forum
UI IT Security Resources - Updated

Project Portals

Welcome to the ITSC Project Collaboration Portals

What are Project Portals?
The ITSC's project portals provide a collaborative environment for the UI community to interact with each other and openly share information. These portals, hosted on a SharePoint environment, serve as a collaborative workspace for project teams to access and share documents throughout a project life cycle. ITSC is offering states the opportunity to develop their own project collaboration portal for multi-state or single state UI IT projects.

Want to set up a portal?
If you are interested in learning more about the project collaboration portals, please contact ITSC Product Manager John Quichocho at (202) 650-5165 or jquichocho@naswa.org. ITSC will give you access to a project portal and a walk through intro webinar to discuss your state's needs and how a project portal can help with your next IT project.

UI IB
NASWA Unemployment Insurance
Interstate Benefits Subcommittee

Welcome to the NASWA UI IB Subcommittee Portal

Mission
The mission of the Unemployment Insurance Interstate Benefits (IB) Subcommittee is to provide methods for the exchange of information among states and Canada to support Unemployment Compensation initial claims, benefit determinations, federal UI programs, and workforce security objectives.

Association Year 2018-2019
Chair - Katie M. Houghlin (KY)
Vice-Chair -
Policy & Training Workgroup - Co-Chairs - Miryam Valenzuela (AZ) and Diana Harris (TX)

Please email Hillary Hewko at hhewko@naswa.org if you have questions or need login credentials.
